8. MATTERS TO BE CONSIDERED

8.1. Holiday Messages on MiWay Bus Destination Signs

Ryan Cureatz, Manager, Marketing, Transportation and Works spoke about the report entitled “Holiday Messages on MiWay Bus Destinations Signs” noting the existing messages are standardized.

Questions and comments were made by Committee members with respect to previous discussion on this subject in 2016. Committee members raised the following questions: is the public consulted about messages; were technicalities with respect to manual messaging selection reviewed; do new buses require manual messaging; the practices of other institutions; can we remove Christmas messaging; and can policy changes be made to require drivers to change messages.
Committee members noted that we need to be cautious about restricting the discussion to community and culture and ensure everyone is treated equitably and follow the mandate of the Committee. Members agreed to continue the practice of displaying holiday messages on buses and that technology and the practices of other institutions be researched by staff and reported back to the Committee.

Councillor Starr thanked members for their comments reminded the Committee that this is not the final forum; it is up to council to make the final decision.

RECOMMENDATION
DIAC-0007-2017
1. That Transportation and Works staff be directed to review the technical issues with respect to holiday messaging on MiWay bus destination signs, review the possible list of messages, research for additional information to review the best practices of organizations such as the Peel Board of Education and the United Way of Peel, and include data on demographics.

Holiday Messages on MiWay Bus Destination Signs

Recommendation
That staff recommend that the current practice of voluntarily displaying statutory holiday messages on MiWay bus destination signs continue. If the list of messages should be expanded, that the Diversity and Inclusion Advisory Committee (DIAC) provide a recommendation to Council on which non-service-related messages should be added.

Report Highlights
• Transit Operators have discretion to voluntarily display pre-programmed, non-service-related messages (e.g. Merry Christmas or Happy Canada Day) on MiWay bus destination signs by manually inputting corresponding codes.

• Messages related to statutory holidays are included in the system while religious holidays are not included (see Appendix 1).

• DIAC requested a list of potential message options that could be added to the list based on information from the Peel District School Board and the United Way of Peel Region. This list is outlined in Appendix 2 for consideration.

• The religious affiliations of the Mississauga population are outlined in Appendix 2. DIAC also requested additional demographic information, which is outlined in Appendix 3.

• Staff recommend that the current practice of voluntarily displaying statutory holiday messages on MiWay bus destination signs continue.
Background

All MiWay buses have electronic destination signs on the front and curbside of the vehicle. Transit Operators have discretion to voluntarily display pre-programmed; non-service-related messages (e.g. Merry Christmas or Happy New Year) on these signs by manually inputting corresponding codes. This is in addition to the standard route/service information (e.g. Route 1 – Dundas East) that automatically displays when a Transit Operator enters their employee number and work duty number into the iBus system. Given display limitations and Accessibility for Ontarians with Disabilities Act (AODA) requirements the messages are very limited in length. When the need arises to display two service messages (e.g. Route 1 – Dundas East; Temporary Detour), other messages cannot be displayed since the signs can only display up to two messages at once.

MiWay received a request in January 2016 to display “Happy Hanukkah,” which prompted a review of messages on bus destination signs. An external review found that only one of the three municipal transit systems that MiWay connects with (Oakville Transit) displays non-service-related messages on their destination signs. Brampton Transit and the TTC do not. While Oakville Transit displays “Merry Christmas”, a statutory holiday, and “GO Jays GO,” for example, it does not display religious holiday messages.

On June 15, 2016, General Committee directed that the matter of “Holiday Messages on MiWay Bus Destination Signs” be referred to the Diversity and Inclusion Advisory Committee (DIAC) for further discussion.

On Oct. 19, 2016, the Diversity and Inclusion Advisory Committee (DIAC) recommended that MiWay continue with its existing non-service-related messages for another year, and then the Committee would consider expanding the list of messages to include religious holidays.

On Dec. 6, 2017, DIAC recommended that Transportation and Works staff be directed to review the technical issues with respect to holiday messaging on MiWay bus destination signs, review the possible list of messages, research information on the practices of organizations such as the Peel Board of Education and the United Way of Peel, and include data on demographics.

Comments

Non-service-related messages can be displayed on a MiWay bus destination sign in two formats: the message stacked on two lines, as with “Mississauga Welcome Day” or displayed on one line, as with “Merry Christmas” seen in the examples below. The longer the message the more challenging it can be to read, especially from a distance.
Each new message has to be programmed and tested to ensure readability, and the list of fleet messages can only be updated at a MiWay board period service change (approximately every six to eight weeks). A practical limit to ensure message readability is up to 25 characters; that is, about the length of “Mississauga Welcome Day.”

Messages related to statutory holidays are included in MiWay’s current list of pre-programmed messages (see Appendix 1). Religious holidays are not included.

MiWay Customer Service typically receives a handful of compliments each year about displaying “Merry Christmas” and few (if any) requests each year to display a non-service-related message on a MiWay bus destination sign.

DIAC has requested a list of potential message options that could be added to the list based on information from the Peel District School Board and the United Way of Peel Region (see Appendix 2). The list provided is not exhaustive and the messages were drafted to be readable on a bus destination sign.

DIAC also requested data on Mississauga demographics and a summary is provided in Appendix 3.

Transit Operators have voluntarily chosen to display non-service-related messages on their buses for many years. Attempting to make this process mandatory is not recommended as it creates an administrative burden unrelated to reliable service delivery. The display system codes are limited and 40 to 50 messages are a practical limit. Thirty-three (33) messages are already in the system and the list of non-service-related message options outlined in Appendix 2 lists 12 other messages for consideration.

Financial Impact
Not applicable.

Conclusion
Staff recommend that the current practice of voluntarily displaying statutory holiday messages on MiWay bus destination signs continue. If the list of messages should be expanded, that the Diversity and Inclusion Advisory Committee (DIAC) provide a recommendation to Council on which non-service-related messages should be added.

The City’s Respectful Workplace and Workplace Violence Program

The City has revised our Respectful Workplace Policy, 01-03-04 and Workplace Violence Policy, 01-07-01. This was done to comply with provincial legislation and more importantly because we are committed to fostering a culture of respect and a healthy, supportive workplace. Updates to the policies were required to reflect the nature of a modern City workplace and to incorporate other City policies and programs, i.e. the Whistleblower program, in a comprehensive City program to address workplace harassment, sexual harassment and workplace violence.

Background:

- Bill 132 built on Bill 168, which in 2010 explicitly recognized workplace violence and harassment as Occupational Health and Safety issues under the law.
- Employers have an obligation to investigate complaints in a manner appropriate in the circumstance.

A New Definition of “Workplace Harassment”

The definition of “workplace harassment” under the Occupational Health & Safety Act (OHSA) was broadened to include “sexual harassment” which is defined as: “(a) engaging in a course of vexatious comment or conduct against a worker in a workplace because of sex, sexual orientation, gender identity or gender expression, where the course of comment or conduct is known or ought reasonable to be known to be unwelcome, or (b) making a sexual solicitation or advance where the person making the solicitation or advance is in a position to confer, grant or deny a benefit or advancement to the worker and the person knows or ought reasonably to know that the solicitation or advance is unwelcome.”

Effective Complaint Investigation and Resolution Mechanisms

The OHSA changes also require the City to ensure an effective complaint mechanism that will not directly or indirectly discourage workers from bringing issues forward. In particular, these must include clear protocols to include procedures for workers to report incidents of workplace harassment to a person other than the Manager or Supervisor, if the Manager or Supervisor is the alleged respondent. Further, the City is required to set-out how information obtained during an investigation, including identifying information about any individuals involved, will not be disclosed unless necessary for the purpose of investigating or taking corrective action or otherwise as required by law.

Changes to the Respectful Workplace and Workplace Violence Policies include;

1. Changes to explicitly include workplace sexual harassment in the policy definition of workplace harassment.

2. The introduction of a broader, more modern definition of a workplace
   - A workplace can be any location where employees conduct City business or social activities where their behaviour may have a subsequent impact on work relationships.
   - Recognition that much workplace communication now occurs electronically, implications of social media.

3. References to the City’s Whistleblower Program
   - To encourage staff who would otherwise be uncomfortable coming forward to report allegations to the City anonymously.
4. Updated Statement of Commitment
   - The Ontario Human Rights Code now contains gender identity and gender expression as prohibited grounds of discrimination.
   - Sex discrimination includes breastfeeding.

5. The Respectful Workplace and Workplace Violence Program now includes protocols for HR staff to follow in assisting managers to resolve informal complaints at the earliest possible opportunity, for HR staff to initiate a formal investigation process where appropriate and to ensure timely communication with employees who come forward with complaints.

6. Broadened definition of “investigator” to include Managers (for informal complaints) and new tools/training to allow Managers to take a lead role in investigating and resolving informal complaints in their workplaces.

**Employees Responsibilities under the Respectful Workplace Policy include but are not limited to:**
   - Promoting and contributing to a respectful workplace.
   - Refrain from conduct that would be in violation of this policy.
   - Reporting incidents to Management or Human Resources where violations of the policy occurred.
   - Providing information to an Investigator when requested.
   - Co-operate fully in any attempts to resolve or investigate an incident.
   - Maintain confidentiality.

**Employees Responsibilities under the Workplace Violence Policy include but are not limited to:**
   - Promote a workplace free from workplace violence and refrain from contributing to or engaging in any acts of workplace violence.
   - Immediately notify Management or Human Resources of any workplace violence, whether the employee is a victim or not.
   - In the case of an imminent threat of workplace violence to themselves or any person, an employee should contact the Police or Security Services at ext. 5040.
   - Where appropriate, go to a safe location in the workplace and immediately report the incident to any Management staff.

**Management Staff Responsibilities**
   - Management staff are responsible not only for their own actions but also for dealing with the actions of staff under their supervision. Management must intervene if a violation of the Respectful Workplace, 01-03-04 or Workplace Violence Policy, 01-07-01 has been brought to their attention and/or has been witnessed. Appropriate steps must be taken to address and resolve the situation.

**Complaint Options**
   - To initiate a formal Respectful Workplace complaint, a written document must be submitted to your Manager. The formal Respectful Workplace Complaint Statement Form is available on the Inside Mississauga website under the ‘Forms’ section. Employees who do not have computer access can contact their Human Resources Representative.

   - Employees have other options at their disposal to bring forward a complaint. Complaints of harassment, sexual harassment, bullying, discrimination or workplace Violence can be brought to a Manager/Supervisor, Human Resources, or reported anonymously through the Whistleblower Program. The Ontario Human Rights Commission can also be of assistance and employees who are members of a Union could also pursue a grievance. Again, in the case of an imminent threat of workplace violence to themselves or any person, an employee should contact the Police or Security Services at ext. 5040.
Investigation Outcomes

- Employees who are found to be violation the Respectful Workplace or Workplace Violence Policies may face a range of consequences depending on the nature and severity of the behaviour. This could include an apology, education, counselling, a verbal or written reprimand, a suspension, or the termination of their employment.

- Employees who make a complaint, as well as anyone else who is involved, should not face negative consequences for taking part in the complaint process and will be free from any reprisal. The City will take corrective action against any employee who retaliates or threatens retaliation against an individual due to raising an issue under these polices, filing a complaint or acting as a witness in an investigation.

Please take the time to review the updated Respectful Workplace and Workplace Violence Policies. The Respectful Workplace and Workplace Violence Policies which can be found on Inside Mississauga. If you have any questions or concerns, please contact your Human Resources representative.

- Abuse of power
- Humiliation or embarrassment
- Persistent and unjustified criticism
- Exclusion and/or isolation
• Threats, or
• Rumours/gossip

“Employee” - To simplify the language in this policy, the term “Employee” encompasses all union and non-union employees, as well as elected officials, citizen members of committees and volunteers acting on behalf of the City of Mississauga.

Workplace Harassment and Workplace Sexual Harassment are also forms of Discrimination when they relate to any of the protected grounds identified in the protected grounds of the Ontario Human Rights Code.

Background

Since its inaugural meeting DIAC has spent time developing a priorities and vision document as well as an action plan. The Committee also participated in diversity training lead by Renee Basille-Jones of Canadian Centre for Inclusion and Diversity. A further session is scheduled with Renee at the Committee’s April 20th meeting to refine the action plan to ensure it aligns with the roles and responsibilities of a Committee of Council.

As part of this process, a work plan will be prepared with input from staff and Committee members that aligns with the objectives of the Committee over the coming year and more generally over their term.

Recommendations

Structure of Agenda:
Staff would suggest that based on the size of the committee and after observing the first year of meetings that the DIAC quarterly agenda be structured into two components, to ensure meetings are productive and fruitful:

1. Items referred to DIAC from General Committee or Council

   Items referred from General Committee or Council would begin with a presentation by staff (or external representatives) to educate the Committee on the issue, followed by discussion by the Committee, and then the relevant action (i.e. input, recommendation, etc.)

2. Work Plan Items

   Through a review of the results of the facilitated sessions with DIAC, and in consultation with various divisions, staff has developed a workplan of projects to bring to DIAC for consultation and input. The workplan identifies corporate projects already in the planning stage, which fit within on the following themes:

   - Suggest/Support Community Engagement
   - Apply DIAC lens to policy review and development
   - Recommendations to ensure events are inclusive

   All of these items are aligned to suggestions made by the Committee through their
Vision, Priorities and Action Plan sessions.

Introduction
The final report for the Mississauga 2018 Cycling Master Plan (CMP) is now complete. It is an update to the 2010 CMP. The project started in January 2017, and will go to General Committee this month. The Active Transportation Office is looking to get the plan and a funding level endorsed by the current city council, for approval through the budget process and subsequent city council.

Overall, the plan’s focus for the next five years is:
- To build connected and comfortable cycling facilities
- Strategically develop the cycling network
- Study the feasibility of a bike share program
- Implement a bike parking strategy
- Be better positioned to leverage project opportunities (road rehabilitations, MTO construction, grants)
- Conduct performance monitoring

This update of the 2010 Cycling Master Plan was driven by several factors:
- 5-year refresh
- Evolving best practices in cycling infrastructure design
- New thinking on network planning principles
- Vision Zero

In addition, a number of statistics highlight the needs and opportunities for a new plan:
- Cycling mode share has doubled between 2011 and 2016 (from 0.3% to 0.6%)
- 82% of trips under 5km are done by car, but could easily be done by bicycle.
- There were 473 collisions involving bicycles, from 2010 to 2013. 3% resulted in major injuries, and 1% were fatal.

Vision and Goals
Vision:
The City of Mississauga will be a place where people choose to cycle for recreation, fitness and daily transportation needs. Cycling will become a way of life that supports vibrant, safe and connected communities and enhances our overall health and quality of life.
Goals:
- Improve safety for cycling.
- Build a connected, convenient and comfortable bicycle network.
- Increase the number of cycling trips in Mississauga.
- Foster a culture of cycling.

To achieve these goals, there are 65 action items divided into 7 categories. There are also 25 performance measures tied to the four goals to continually evaluate the plan.

Existing Network
The 2010 CMP focused on implementing bike lanes, multi-use trails, and signed routes. 454 km were built as of January 2017:

Public Engagement
There was extensive public engagement for the CMP, which revealed a number of central themes.

Consultation Process:
- 2 public open houses
- 5 MCAC working group meetings
- Info tables at community events and public locations in all wards
- Social media
- Print and digital advertising
- Project website
- Mississauga Cycling Survey

Central themes from public engagement:
- Building a network of connected cycling facilities
- Physically separated bicycle facilities along busy streets
- Protected crossings where trails intersect with roadways
- Separating pedestrians and cyclists on busy trails
- Improving surface conditions on unpaved trails
- Designing intersections to include bicycle facilities

Recommended Cycling Network
The CMP recommends a cycling network that is connected, convenient, and comfortable. A successful cycling network is one that makes it possible for people to get to where they want to go (Connected) without significant detours (Convenient) and without exposing cyclists to conditions that are beyond their tolerance for traffic stress (Comfortable).

Overall, the recommended cycling network:
- Fills in gaps from 2010 CMP.
- Focuses on separated and protected infrastructure.
- Less signed routes and painted bike lanes, more separated bike lanes and cycle tracks.
- Boulevard multi-use trails where low pedestrian activity.

The CMP also recommends building and upgrading infrastructure to new modern designs:
- Accommodation of cyclists through roundabouts
- Mid-block bike/pedestrian crossings
- Bicycle traffic signals and cross-rides to navigate intersections
Recommended Supporting Programs
A number of supporting programs are recommended to leverage and take advantage of new infrastructure:

- Bike parking program
- Public bike share program feasibility study
- Promotion and education initiatives
Implementing the Plan
The full cost of the plan is $267 million, plus an extra $200,000 per year for additional programs, and additional staff resources.

Additional yearly programs:
- Bike parking program: $50,000 per year (approx. 100 spaces)
- Intersection enhancement program: $150,000 per year (approx. 2-3 intersections per year)

2019 staffing request:
- Active Transportation Coordinator (1 FTE)

To reduce costs, staff will continue to seek coordination opportunities with road rehabilitation, major roads and MTO projects.

Off-road park trails and major structures are subject to project-by-project funding. Community Services funding for off-road trails is considered adequate at this time, with major trails currently in design and under construction.

For Roads Service Area funding, four funding scenarios have been proposed. Scenario C is recommended in the staff Corporate Report (scheduled for General Committee on June 27th) in order to be able to fully coordinate construction with other projects, and strategically fill gaps with stand-alone projects.

Conclusion
The 2018 Cycling Master Plan aims to create a connected, convenient, and comfortable cycling network, that is safe for all users, and encourages cycling. The plan proposes an updated cycling network, new infrastructure, and provides scenarios outlining the amount of funding required to complete the network in various timeframes.
